

# When To Start And Stop Quarantine

You had close contact with someone who has COVID-19.

Each person goes to a separate home.

**Your quarantine:  
14 days from last exposure**

You had close contact with someone who has COVID-19 and live in the same home.

Can avoid sharing any common spaces or bathroom areas - no further close contact.

**Your quarantine:  
14 days from last exposure**

While under quarantine you had close contact with another person with COVID-19.

**Your quarantine:  
more than 14 days**

You should restart your 14 day quarantine from the last day you had close contact with someone who has COVID-19.

You live with or care for someone who has COVID-19 and cannot avoid further close contact.

**Your quarantine:  
24 days**

Note: People with COVID-19 can spread the infection for up to 10 days, therefore 10 days are added to the 14 day quarantine.

*Close contact = Within 6 feet for a total of 15 minutes or more.*
